SPC WALL PANELS

SPC MARBY

PRODUCT FEATURES

www.decomdis.com

Zero Formaldehyde Addition
The product uses aldehyde-free material as the base, no paint composition, and is environmentally friendly and odorless after installation. More environmentally friendly than E0 level.

Termite Repellent Insect Frog
New medical-grade polyvinyl chloride polymer resin and bamboo fiber as base material. High strength and toughness, effectively prevent issues caused by termites and mold.

Waterproof
Excellent moisture-proof performance, especially suitable for southern home decoration, effectively avoiding water leakage caused by mildew.

Fireproof
The fire rating reached B1 level, basically meeting project requirements.

Convenient Installation
The product's special lock design allows it to be directly installed on wool blank walls, saving time, effort, and cost.

Easy to Scrub Without Deformation
The surface of the product can be directly cleaned with a cloth, simplifying the cleaning process.

SPC MARBY SERIES

Modern strength. Timeless texture.

The SPC Marby Series combines durable, everyday performance with a refined, modern look. Inspired by natural stone, each design adds depth and character, bringing clean elegance to any space.

A close-up photograph showing the interlocking mechanism of the SPC Marby panels. Two panels are shown meeting at a corner, with a small, dark, rectangular piece (the click system) visible in the joint.

SPC Marby SERIES

SM-8005

A vertical photograph on the left side of the page showing a modern interior. A white sofa is visible in the foreground, and a large, light-colored SPC Marby panel is mounted on the wall behind it. A small potted plant is visible on the left side of the panel.

Inspired by natural stone surfaces, SM-8005 embodies subtle elegance with a contemporary edge. Its soft mineral tones and textures create a refined industrial aesthetic, perfect for modern interiors seeking depth and character. A seamless balance between raw authenticity and sophisticated design.
